

Sunrise Trailer Parts offer tailgate springs in left and right hand configuration

Tailgate springs are designed to assist with the raising and lowering of a tailgate/ramp. Tailgate springs should not take the total weight, the tailgate/ramp must overcome the resistance of the spring so it is able to lay stable on the ground once lowered. Avoid any weld spatter on springs as this will result in premature failure.

CODE	SIZE	A	B	C	Kgs supported @ 1mt 90 Degrees	Kgs Supported @ 1mt 120 Degrees
TCS12	12mm (1/2")	730mm	150mm	51mm	12kg	17kg
TCS14	14mm (9/16")	730mm	150mm	51mm	17kg	30kg
TCS16	16mm (5/8")	730mm	150mm	51mm	30kg	50kg
TCS19	19mm (3/4")	730mm	150mm	51mm	90kg	105kg
