

HUME PLUMBING

WATER TANKS, WATER TANK KITS, FILLERS & ACCESSORIES

CARAVAN PLUMBING SYSTEMS ARE REQUIRED BY LAW TO COMPLY TO LOCAL AND NATIONAL LAWS, LEGISLATIONS & AUSTRALIAN STANDARDS.

IF YOU REQUIRE ASSISTANCE YOU SHOULD CONTACT YOUR STATE/TERRITORY AUTHORITY. THE CARAVAN INDUSTRY OF AUSTRALIA CAN DIRECT YOU IF REQUIRED.

Most modern RVs are fitted with their own bathrooms, which has been fantastic for the sake of convenience, now you can enjoy a hot shower or even go to the toilet in the middle of the night without having to venture out to the caravan park's communal bathroom facilities.

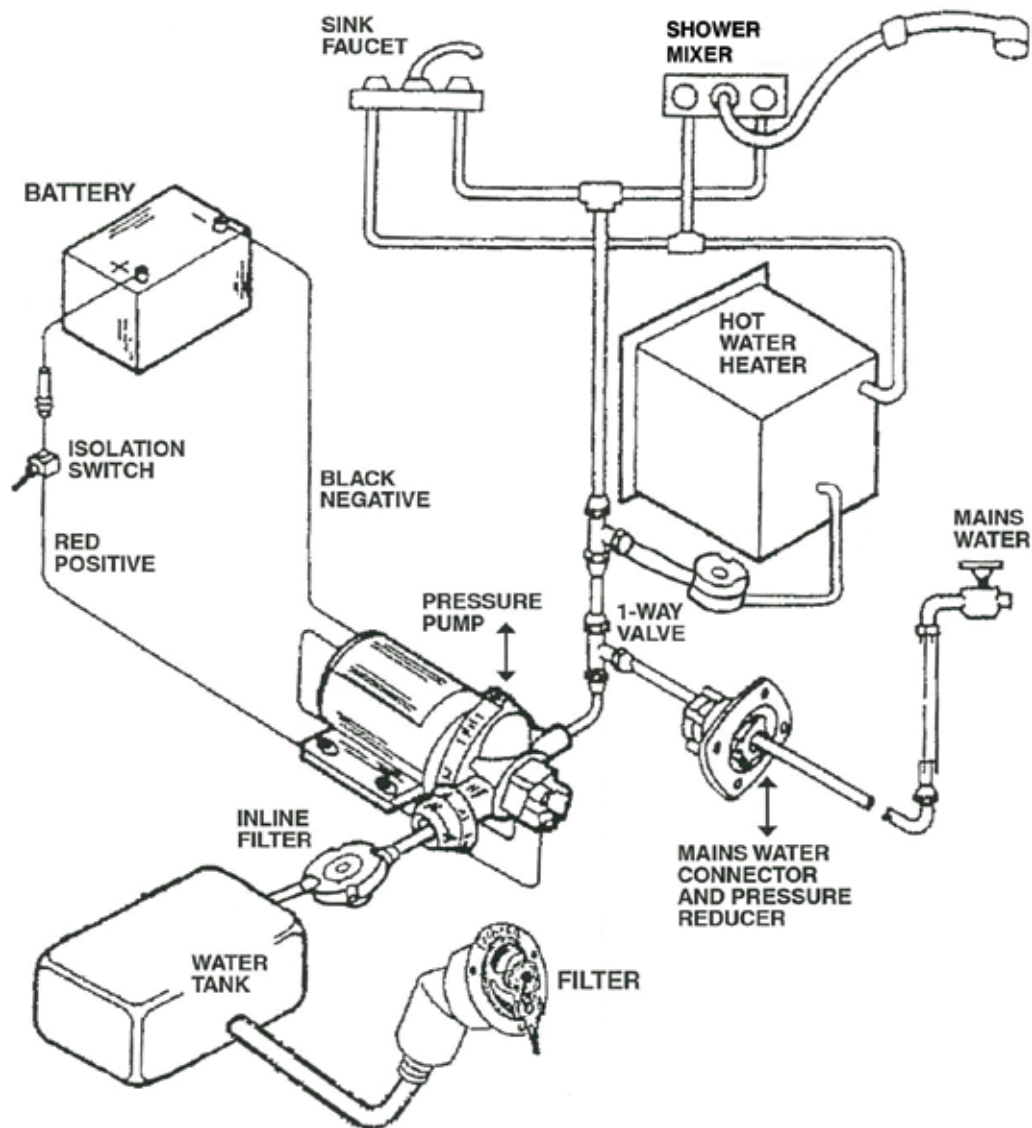

Issues with caravan plumbing, however, are no laughing matter – depending on which pipes and components are involved, the situation can quickly get messy. Although some issues are unavoidable, many can be prevented simply by having correct – and high

quality – fittings to work with. HUME stocks a wide range of caravan plumbing accessories and fittings for this very reason.

Those who are new to lifestyle are often surprised by how many caravan water containers can be added to an RV – from tanks to carry fresh water to tanks that are designed to carry waste water until you find somewhere to safely dispose of it, you could literally be carrying litres upon litres of water with you.

HUME PLUMBING

GENERIC PLUMBING SYSTEM

HUME PLUMBING

WATER TANKS & KITS

FRESH WATER

Part No. 680150
Ref. WT 62LT

HUME 62 Liter Fresh Water Tank.

Roto molded in Australia ensures the structural integrity required for our tough conditions.

Dimensions

Product height 170mm
Product width 990mm
Product length 500mm
Net weight 1.0 kg

Fittings/Threads

3/4" BSP - Female Thread

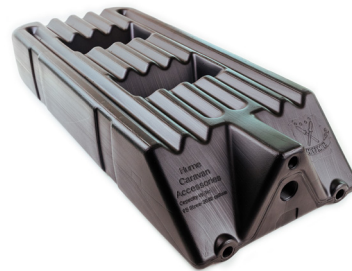

62 LTR FRESH WATER TANK KIT

Part No. 680150
